

Don Johnson Archive

Don Johnson (died 24 December 1992) was an author, historian and artist with a great knowledge of the history of the Charters Towers goldfields. As a mining consultant, Johnson provided mining companies with a record of mines' past operations.

The collection consists of various records relating to the mining activities in the Charters Towers region from the District Geologist's Office (1888-1944 photocopies). There are Annual reports (1952-1982), and monthly reports (1952-1971) from the Mining Warden's Office, Charters Towers, and copies of various ephemeral materials relating to Charters Towers collected by Johnson.

Archive Location: 331-339

Detailed Listing

DJC/DGO/1 Hawkins Hill Mine of Georgetown - December 24 1935

DJC/DGO/2 Golden Bar, Georgetown - December 2 1935
