MOVEMENT FOR RESPONSIBLE COASTAL DEVELOPMENT

Welcome to MRCD and thank you for your support and encouragement. We trust you will enjoy your first newsletter and that you will want to contribute to it in the future.

On the front cover is a copy of a limited edition wood-cut print by Ben T. To assist in fund raising the wood-cut will be raffled at our next meeting. Ben has offered to do a different wood-cut print for each newsletter and each one will be raffled at the following meeting.

We want our newsletter to be informative and cover a broad range of issues. As you can see on the inside cover we intend to have many sections and hope to include most in each newsletter. Your criticism, letters, essays, cartoons, articles, jottings, thoughts and suggestions will be accepted with enthusiasm.

GUEST SPEAKER Our first guest speaker is

David Cassells

'Breaking (the) Ice' Ben T. '90

'Breaking (the) Ice' stands for rock formations, coast al headlands and environ-ments in general.

Some of these are under considerable stress from overdevelopment.

The Symbol stands for a try to communicate, find common goals - but also affirm our position.

Developing your community
R.M.T. 10MOVEMENT FOR RESPONSIBLE COASTAL DEVELOPMENT inc.
August, 1990, Number 2

The last two months have been busy as usual, but the highlight was the wonderful walk on R214. The 74 enthusiasts really enjoyed the informative input of Tony Irvine [CSIRO], Joan, and the others who shared their knowledge and love of the area. The cassowary droppings were most enlightening!

Our membership now numbers 126 and the certificate of our incorporation has arrived. We are now MRCD inc.!

This edition includes contributions from Helen Irvine, Jenifer Nicholas, Leo Solinas and members of the committee.

CASSOWARY RESCUE A very successful cassowary rescue took place on 21 July. A young sub-adult was hit by a car on the Sth Mission Beach Road. A phone call to Joan generated a team response including Bill Morgan, Mary & Keith Scully, Chris Mance and Kate [the vet]. After treatment the bird was released in the wild and monitored for 2 weeks.

IF YOU FIND OR KNOW OF AN INJURED CASSOWARY PHONE ANY OF THE FOLLOWING NUMBERS 688565, 688222, 687481, 685218.

The Liberal Party's Environmental Policy was sent to us by Denver Beanland. We will reprint sections of it in this and the next edition.

GUEST SPEAKER Our next guest speaker is Margaret Worrall.

'Keeping your marbles' Be T. '90

The stability of the movement stems from its members!

Their efforts to have a voice that is listened to is commendable, and the respect it gains is hard fought for.

MOVEMENT FOR RESPONSIBLE COASTAL DEVELOPMENT inc.
November, 1990, Number 3

During the past two months it has not always been easy to 'keep our marbles', hence Ben's most perceptive comments and this edition's woodcut. The pressure comes from those opposed to our point of view and is sometimes very considerable. Being sprayed by the water truck when visiting 602 with the ABC team was very cooling on such a 'hot' day!

Our membership now numbers 170.

The management plan for cassowary conservation is being prepared and the recommendations will be available in the near future. [see page 2]

This edition includes contributions from Norman Byrnes [first in a series on mangroves] & Thomas Ebersoll. The second part of the Liberal's policy on the environment and Labor's environmental initiatives are included in the Politics section.

Plans for the DCP workshop are going well. Please come along [with a packed lunch] ready to participate and enjoy the day. [9.30am Sat 10 Nov]

Our Christmas party is to be held at Lacey's Creek 5.30pm Sunday 16 December. BYOFANING

- GUEST SPEAKER Our next guest speaker is Dr. Graham Harrington, Director, CSIRO, Alburyton. His topic: Difference between Economic Growth and Economic Development.

Return to the Editor,
7th Floor,

MOVEMENT FOR RESPONSIBLE COASTAL DEVELOPMENT inc.
February, 1991, Number 4

The death on 25th January, of Arthur Thorsborne signifies a great loss. This edition is dedicated to the memory of Arthur and in recognition of his outstanding contribution to the conservation movement in North Queensland.

The Consultative Committee for Cassowary Conservation has, to our delight, been established. News on this Committee and its structure are on pages 3 and 4.

This edition includes a contribution from Norman Byrnes [second in a series on mangroves]

Community support, perseverance, hard-work, in the way of public walks, letters, media coverage have been rewarded, see page 5.

Our **BIRTHDAY** and first AGM will be held on 1st May. The main agenda items will be; the election of Chairperson, vice-chair, secretary, treasurer [nominations can be sent in to the secretary or made on the night]; treasurer's and auditor's report; management committee report.

In "Jottings" Ben has a few pertinent words to say about the woodcut print on our cover.

The hard work of the last year has been well rewarded with a \$3,000 grant from the Department of Environment and Heritage. The grant is to be used for library resources and a facsimile machine.

Our membership now exceeds 200.

"Shared Vision". Once again Ben's wood-cut causes us to think and ponder about where we are going and if we do make the best use of our discussions within and outside our membership. There are many who are not members who do share our vision for the future of our area but who choose to express their concern in a different way.

"Never doubt that a small group of thoughtful committed citizens can change the world. Indeed, it is the only thing that ever has." Margaret Mead

This newsletter is a real mixed bag, a sort of pot-pourri; things we have been meaning to do for a long time are finally in and some encouraging information from PATA [see p.8]

Norm Byrnes our resident botanist is undertaking a comprehensive littoral survey of our area. We hope to include Norm's findings in our ongoing submission to the Coastal Protection Strategy.

Udding the Coast to Sea

MOVEMENT FOR RESPONSIBLE COASTAL DEVELOPMENT INC
October, 1991, Number 8

Once again the hard work of our members and of many others in our community has been rewarded. The Consultative Committee for Cassowary Conservation has received funding for a project officer and an Information Centre [see details page 10 - 11]

The theme of Ben's print gives us a preliminary glimpse into our December newsletter and guest speakers but it also reminds us of the therapeutic effect of the "cool of shelter" and of getting "away from the glare". We need to ensure that those places will be there for us and future generations, not just of humans, but of flora and fauna.

Norm Byrnes' article on "An Ecosystem in Crisis" has been printed in full so that we may all benefit from it. We will be printing it separately along with a list of Cassowary food trees and hope to raise a few dollars from the sale.

• **GUEST SPEAKERS** Our next guest speakers will be Peter Stanton Principal Conservation Officer, QNPWS Cairns and Norm Byrnes, member of MRCD and retired botanist with extensive experience in identifying, classifying and naming species.

MANAGEMENT COMMITTEE'S ANNUAL REPORT
 1990-1991

The M.R.C.D. was founded on 17 April 1990 with ten members. It was at this meeting that:

- * our objectives were determined
- * our name decided
- * office bearers were elected

The meeting decided to contact others in the Mission Beach area who would be interested in and supportive of the Movement; in particular, supporters of the M.B.P.A. and others who demonstrated a sincere interest in the economic, social and environmental future of our area.

The first workshop was held on 12 May. The issues discussed and decided at the workshop:

- * Letters of introduction to local councils and State Government politicians
- * E.A.R.C. submission
- * Clump Point policy
- * Crown Land areas identified

A meeting was held for members and intending members on 22 May. Sixty people attended this meeting and bi-monthly members meetings have been held since.
